

Vodafone Business IoT Easy Connect 4G

Internet

Telephones

TV

With the prepaid IoT tariff Vodafone Business IoT Easy Connect 4G, you can use 400 MB data volume and 250 SMS per SIM card for a term of 7 years. You benefit from network coverage in our Vodafone networks as well as partner networks within Europe and the USA in the 2G & 4G network.

You also get access to the IoT Easy Connect Portal, which you can use to manage and control your SIM cards at any time. If a SIM card does not have enough included volume, you can easily and conveniently reload your SIM card via the IoT Easy Connect portal. You will always receive all invoices and order information directly via the portal. Take advantage of the opportunity to use our IoT SIM cards cost-effectively and efficiently. There is no speed limit for this tariff.

You can read all further details about the tariff, such as the list of available countries or technical specifications, in our service description and in our terms and conditions at [IoT Easy Connect - Vodafone.cz](https://www.vodafone.cz/iot-easy-connect).

Our offer is aimed exclusively at business customers based in the Czech Republic.

List price excluding VAT.

One time charge 179 CZK per SIM card and
249 CZK for SIM Chip)
